## AREAWIDE CLEARINGHOUSE COMMENTS

The State Division of Oil, Gas and Mining is responsible for reviewing and approving mining operation plans. Tenneco Minerals has submitted an application which would allow the expansion of their mining facilities in Washington County. The Washington County Commission and Five County AOG staff have recently toured the site and reviewed the proposed expansion plans. Both county and regional officials have supported the proposed expansion as a vital part of improving the regional economic base. They are confident that the proposed design and engineering will comply with all environmental concerns. (Ken Sizemore)
